

When life's autumn comes, women, worn out by the burdens and obligations of motherhood, yet still from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness, and that the loss of life will alone remain at the bottom of the cup of existence. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her, who from the time of the first change of life, from girlhood to womanhood, has taken care to constantly keep her system in vigorous health.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, alters and inflammations which sap its health, "Favorite Prescription" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or the personal inability to enjoy life.

Mrs. M. Thomas of Hills Ferry, Alaska, Co., writes: "My physician said I was suffering from the effects of 'change of life.' I had heart disease and would trouble and rheumatism. When I began Dr. Pierce's medicines I improved right along. I took seven or eight bottles of 'Favorite Prescription,' a teaspoonful three times a day, and the 'Pleasant Pellets' at night. I feel as well as I ever did."

There is no alcohol, whiskey or other intoxicant in "Favorite Prescription," neither does it contain opium or other narcotics. You may be willing that somebody else shall say that their habit is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good," but don't let them substitute anything for "Favorite Prescription."

Dr. Pierce's Pleasant Pellets cleanse the clogged system of impurities.

B.G. MINING SALE

The Congress Mine Sells For Three Million Dollars

The Gazette says: After years of working, the Congress mine has been sold, and that at a figure that is astounding. Warner Miller, the New York millionaire, is at the head of the syndicate that has purchased the Congress mine and the price paid is \$3,000,000. The money was paid through the Chase National bank in New York and E. B. Gage and Frank Murphy got the bulk of this enormous sum. Senator Miller made four different examinations of the property before purchasing, but during his last visit in March he made up his mind to buy the property, and the Congress mine is now in his hands and his company is operating it.

The mine has been worked for the past six years with a profit of from \$30,000 to \$75,000 per month and is without doubt one of Arizona's greatest mines.

Harry Weatherpoon who is up from Newcomb's state about 100 men are employed in all the departments of the big company's mines, smelters, mills etc. The work of pushing the long tunnel, to facilitate the handling of the ore, is well under way. All the ore will be concentrated before treated at the smelters. The ore reserves at the mine shows it to be one of the world's greatest copper deposits and will be a prominent factor in the world's supply of red metal.

Our townsmen J. B. Miano is somewhat of a floriculturist. At his cozy home is evidence of what careful cultivation of flowering plants will develop. Among the many varieties of flowers which grow in profusion in his garden is a bed of carnations that are a beautiful sight to behold. The pink, a profuse mass of highly fragrant flowers of large size, thrifty variety, and exuding a wide range of colors, indeed excites the admiration of all who see them and is a pardonable source of much pleasure for the proud owner. The carnation is well worthy of place among the favor flowers of our flowers and Mr. Miano has successfully demonstrated that these can be grown to perfection here.

The name of the man who died at Frank Wootan's ranch at Aravaipa reported in our last issue was Bob Weaver. We were then unable to obtain the full particulars of the affair. Later we learn that twenty six days previous to his death, while on a round up near Table Mountain, he was bitten by a skunk. Next day he suffered from a high fever, but it disappeared and the wound healed. Later on the fever developed again and he was taken to Frank Wootan's ranch in Aravaipa, and Dr. Parker was called to attend him. The doctor was afraid it would develop into a case of hydrophobia, and mixed some lemonade for patient in order to make a test. As the patient was about to drink it he died suddenly. It is not known whether he died from heart failure caused by the poison or from the effects of a fall which he received some time before, or from the effect of both.—Range News.
